COMMITTEE OF EXPERTS ON THE TRANSPORT
OF DANGEROUS GOODS

Sub-Committee of Experts on the
Transport of Dangerous Goods

REPORT OF THE SUB-COMMITTEE OF EXPERTS ON ITS TENTH SESSION (Geneva, 10-20 July 1995)

Corrigendum

Paragraph 44 should read as follows:

"44. The representative of CEFIC recalled that three conditions existed for excluding such substances from Class 1 and classifying them in Division 4.1, namely:

(a) The desensitizer should be compatible with the particular explosive being desensitized;

(b) The concentration of desensitizer should not change during normal transport conditions;

(c) As packaged, desensitized explosives must meet the current criteria of test 6(c)."
